

MENTORS needed for:

14th Annual NWABR Student Bio Expo, Thursday May 22, 2014
Shoreline Community College
Shoreline, WA

What is the Student Bio Expo?

The Student Bio Expo is an exciting event draws high school students from Seattle and the Puget Sound area to a culminating event where they biology, biotechnology and molecular biology classes and allows them to present their projects to each other and to the public. The Expo promotes science literacy and allows students to showcase work that reflects different aspects of the biosciences.

- Each student has an opportunity to be matched with a community mentor who has expertise in the student's area of interest.
- Student projects are presented in a variety of forms – from art, drama, or music to molecular modeling, web design or traditional scientific research. For all projects, students must research the science behind their chosen topics

SIGN UP TODAY!

We are currently recruiting Adult professional mentors who have 5-8 hours over the next 4 months for this exciting program. Mentoring takes place through Email, Skype or Face-to-Face meetings. The best way to sign up is through our link on Volunteer Match:

Mentoring Students Since 2000

STUDENT BIOEXPO

NORTHWEST ASSOCIATION FOR BIOMEDICAL RESEARCH

"The NWABR Bio Expo is a thrilling opportunity to meet with members of our scientific community and create a project you are truly interested in.

I got to compete with our fellow peers in an intellectually stimulating scientific event."

—Student quote from 2013 Student Bio Expo
