

The Seattle AWIS Monthly Programming Series presents:

Applications of Nanotechnology in Life Sciences

Wednesday – December 16, 2015 – 6:00 PM

Fred Hutchinson Cancer Research Center – Pelton Auditorium

1100 Fairview Ave. N., Seattle, WA 98109 – Free visitor parking

6:00 PM - Networking and Refreshments

6:30 PM - Introductions and Program

7:45 PM - Networking and Dessert

Come join us to learn about current nanotechnology research and applications in the life science industry. Our panelists will discuss current nanotechnology research and innovative technologies including drug delivery, engineered materials for modifying biological processes, nanomedicine-based and nanometabolic-based platform development, and visualization of tumor cells. We will also learn about education options for getting into the nanotechnology field and connecting with academic and industry partners in our region.

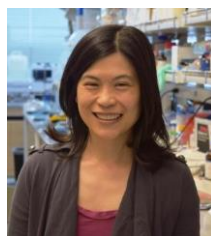

Our Distinguished Panelists:

Elizabeth Nance, Ph.D.
Assistant Professor of
Chemical Engineering,
University of Washington

Graciela Matrajt, Ph.D.
SHINE Managing
Director,
North Seattle College

Suzie Pun, Ph.D.
Professor of
Bioengineering,
University of Washington

**Heather Franklin,
MS/MBA**
CEO and President,
Blaze Biosciences

All are welcome – members, non-members, women and men!
