

EDUCURIUS

# LEARNING THAT CONNECTS

Educurious is a nonprofit corporation with a mission to empower and motivate young people to achieve academic, career and personal success through transformative learning experiences. Our integrated solutions capture the imaginations and interests of young people. By combining project-based learning, technology, connections with real-world experts, supports for teachers, and workplace explorations, we create meaningful learning experiences that cultivate contemporary skills. Our approach includes:

- **A National Network of more than 500 Experts:** Working professionals collaborate with students on school projects and give direct or video feedback on student work. Learning becomes relevant when students connect with experts at work in the world, giving them an opportunity to explore career paths while developing skills, knowledge and experience in their coursework.
- **Integrated Technology:** Rich interactive media and digital tools engage students' enthusiasm, creativity and collaboration. Our online platform allows teachers, students and experts from the professional world to communicate and collaborate.

## PROJECT-BASED COURSES

Middle and high school units in English, Math, Social Studies and Science.

Students develop solutions to real-world challenges.

Built to the Common Core State Standards (CCSS) and Next Generation Science Standards.

## PROFESSIONAL DEVELOPMENT

Project Design Workshops

Customized programs that meet teachers where they are.

In-person and virtual components offer flexibility in making shifts in practice.

A vibrant learning community builds trust and support.

## CAREER-CONNECTED LEARNING

Digital coursework and career exploration experiences equip students with the knowledge and skills they need to make informed plans and decisions about future career paths.

Virtual mentoring connects students to our national network of experts.

Educurious is inspiring thousands of young people across the nation. To learn more about our solutions and the positive impact teachers and schools are making right now, contact us at
